I have hands on experience in software development and project implementation, with a focus on creating efficient, user-friendly solutions. I am passionate about learning new technologies, working collaboratively in teams, and continuously improving my professional and personal growth.

Skills

- Technical Skills: Python, Java, SQL
- Soft Skills: Communication, Problem-Solving, Time management
- Tools/Technologies: Trello, ArguoUML, vs code

Professional Experience

Intern: Adhoc Softwares, Coimbatore.

Period - June 2025 **–** July 2025

Role – Web Developer

- Created a quiz web app using Django.
- Designed user-friendly web pages with HTML, CSS, and JavaScript.
- Learned about backend, database, and web development basics.

Professional Education

B.E - M.kumarasamy college of Engineering, Karur.

Certifications

- Scored 52% in Design and Implementation of Human Computer Interface through NPTEL
- Certified on Investment Risk Management in Coursera.

Projects

Project Title: Chatbot Using NLP

Team size: 4

Duration: 2 – 3 months

Description: The chatbot was developed using Python and Natural Language Processing (NLP) techniques.Used libraries like NLTK and spaCy for text preprocessing and intent recognition.Implemented a rule-based and machine learning-based approach for generating accurate responses.Created a simple Flask web interface to interact with users in real time.Trained the model with sample datasets to improve the chatbot's understanding and accuracy.
